1.0 STATEMENT OF OPENING OF THE PROFESSIONAL CONGREGATION

PUBLIC License Award is an innovative venture by Kenya Nutritionists and Dieticians Institute founded on the current vision. This is a guided process within the mandate framework follows:

An Act of Parliament to provide for the training, registration and licensing of nutritionists and dieticians; to provide for the regulation of the standards, and practice of the profession; to ensure their effective participation in matters relating to nutrition and dietetics, and for connected purposes [Act No. 18 of 2007, L.N. 130/2008.]

During this occasion all degree, diploma and certificate graduates from various recognised and licensed training institutions (Universities and Colleges) are gathered in one place for the Public to witness their licensure. BSc. Graduates must fulfil the requirements for supervised one-year internship programme and professional examinations for various sub-disciplines (*i.e., Clinical nutrition, clinical dietetics, food service diet therapy, food science nutrition, community nutrition and public health nutrition*) before they are licensed. The diploma graduates must pass professional examinations in two sub-discipline (*i.e., Nutrition Technology and Dietetics Technology*) while certificate graduate must pass nutrition and dietetics technicians examination. A professional nutritionist or dietician only qualify for the above when they are duly indexed during their pre-service training at college or university level.

All the professionals regardless of their levels of training are publicly made to realise the demands of their professional orientation and are tasked to subscribe to professional commitment through *professional oath citation* as led by a qualified and compliant professional.

“By the Authority conferred to me Under Section 9 of the Nutritionists and Dieticians Act, 18, 2007, I declare the professional congregation proceedings officially open”

2.0 SECTOR WIDE STATEMENT BY KNDI MANAGEMENT

KENYA nutritionists and Dieticians Institute (KNDI) is a semi-autonomous legal entity created by a parliamentary statute (*Nutritionists and Dieticians Act 18, 2007- Cap 253B*). It is currently placed to execute its mandate within the health sector. The Ministry of Health plays oversight role to ensure the institute is operational. This power is exercised through the office of Cabinet Secretary. Communication channel on matters of oversight with regards to performance is between the office of the Cabinet secretary and the office of the Chairperson of the Council. The Chairperson and Council members

who were elected draw their powers from compliant professionals through an election process conducted at an AGM. Operation matters and performance reporting for purposes of learning and accountability of the institute may allow exchange of information between office of the Principal Secretary and the office of the KNDI Chief Executive Officer.

KNDI being a non-exchequer is mainly funded by fees charged on various services to professionals, training institutions, food companies marketing food products with nutrient claims, consultancy services, grants and donations from relevant bodies with non-conflicting service focus and bank interest from reserve fund proceeds and investment in government security.

KNDI is proud to identify with the Ministry of Health and welcomes the good gesture of the Cabinet Secretary as evidenced through joint regulatory activities and inspections of health facilities under the Health Act 2017. The current Health laws (Amendment) Act, 2019 makes KNDI to be among the health regulatory authorities that are in close work relationship to strengthen Ministerial functions in the health sector. In this new Amendment the Minister has executive powers to appoint the Chairperson once the professional nominates three candidates at an Annual General Meeting (AGM) or Special General Meeting (SGM). This brings clarity on appointments as guided by regulations unlike the appointment under the Act before amendment.

KNDI however values independence in operations with accountability and transparency as bare minimal in-service delivery. The institute urges all service providers in the health sector to observe and respect this independence and use appropriate channels

when exchanging official regulatory information. Once again gratitude goes to the Cabinet Secretary Hon. Mutai Kagwe for the oversight role and support.

Management wishes to Congratulate all the 871 licensees gathered today to take their professional Oath and receive their licenses to practice in nutrition and dietetics.

Dr. David O. Okeyo (PhD)
CHIEF EXECUTIVE OFFICER

Service be our earnest

And our homeland of Kenya
Heritage of splendour
Firm may we stand to defend

Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labor
Fill every heart with
thanksgiving.
